or Karen White

Worcester Career & Technology Center:

410-632-5058

Jessica Eisemann or Leland Green

Worcester Technical High School

Building Futures

Dear Parents/Guardians,

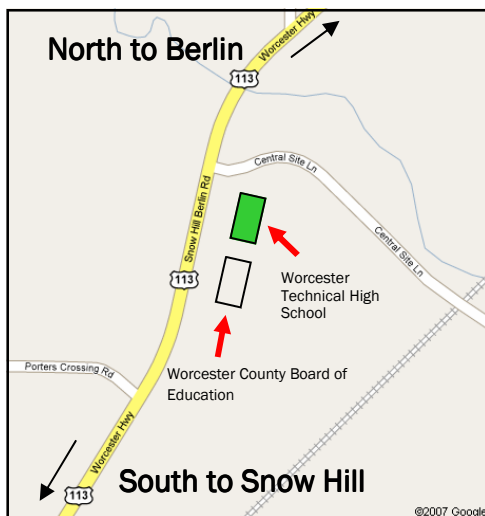

Worcester County Public Schools believes in building futures for all students. In the fall of 2008, the new state-of-the-art Worcester Technical High School will open its doors, offering high school students from Pocomoke, Snow Hill, and Stephen Decatur High Schools new, improved, and expanded programs and services.

The opportunities available at our school will help your child build a successful future, with fantastic options. Whether your child will continue onto college or advanced technical training or go directly into the workforce, Worcester Technical High School will prepare him/her for success. We want to help build your child's future!

Sincerely,

Dr. Jane Pruitt, Principal

Worcester Technical High School

Worcester Technical High School is dedicated to helping all students! We specialize in providing students with:

- *academic subject matter taught with relevance to the real world;*
- *employable skills, job-related skills, and workplace ethics; and*
- *education pathways that help you explore interests and careers while progressing through high school.*

Our school is the first step in a pathway toward productive employment and citizenship. Students who take technical coursework increase their ability to work independently, to work as part of a team, to think creatively, to solve problems, and to use technology — everything that employers look for when hiring. In this ever-changing global economy, students must be prepared for their future. We want to help your child build his/her future successfully!

Please accept our personal invitation to learn more about how our Worcester Technical High School is building futures. Please use the information on the back of this brochure to contact your child's guidance counselor. *(Contact information is on the back of this brochure.)*
